

Portable equipment

Introducing the battery operated **ET9000 series** portable saw

Battery operated

lightweight saw
option ideal for
cutting hose in
the field

Danfoss's ET9000 series **battery-operated** portable saw is a cost-effective solution for clean and efficient hose cutting in the field. Featuring a 4.5" micro-slotted blade, it delivers precise, clean cuts on braided hoses up to -12 size. Its lightweight design ensures easy handling and portability, making it ideal for various applications.
