Rationalization of Special Insta-plug with Indicator Lights on DG4V4, DG4V3, DG4V3S, DG5S4 and DG5V 8 Valves

This is our notification regarding the rationalization of DG4V4, DG4V3, DG4V3S, DG5S4 and DG5V8 models featuring the special Insta-plug with solenoid indicator lights. This special Insta-plug feature will remain available in these models, just **not with solenoid indicator lights**. We will be transitioning from the DG4V4* with **PBWL** to **PBW**; DG4V-3*, DG4V-3S*, DG5S4*, DG5V-8* with **FP**WL** to **FP**W**. This is due to a change from the supplier and their inability to continue offering the current indicator lights.

See table below for the list of the affected part numbers and their respective replacement. Some models would require a part activation request to be submitted. There will be no last time buy for these special Insta-plug models featuring solenoid indicator lights.

For all inquiries, please contact IMCProductSupport@danfoss.com.

Insta-plug Feature Rationalization
