Rationalization of Legacy Slip-in Valves Jan 2019

We have reached the end of life on tooling that produces some of our legacy slip-in valves and will be rationalizing the below assemblies. Unfortunately, because it was an unexpected tooling breakdown we are unable to provide last time buys beyond what we already have in inventory. For a last time buy please reach out to your local customer service representative and we will review our on-hand inventory to see what is available.

We apologize for any inconvenience that this may cause.

For any other questions please feel free to ask your local CSR or contact IMCProductSupport@danfoss.com.
