

Electronic Accessories for Proportional Valves with Associated Power Amplifiers

Amplifier Cardholder

- Version with female edge connector type D32 (Order number 02-104806)
- Version with female edge connector type F32, rows b and z only (Order number 02-104807)
- Version with female edge connector type F48 (Order number 02-104808)

The cardholder is fitted with a DIN 41612 female edge connector type F32/48, having screw terminals that facilitate fast, secure wiring connections. The amplifier cards clip into the cardholder to prevent them from accidentally working loose.

Screw hole spacing:
127 (5.0) X 40 (1.57), dia. 4.2 (.17)

Female Edge Connector for 19"

Rack Mounting

Order number 508178

This DIN 41612 type F48 connector is fitted with solder terminals. The connectors can be user-installed in a 19" rack housing and are designed to accommodate all the amplifier cards.

Warning: Electromagnetic Compatibility(EMC)

The European Community directives for electromagnetic compatibility(EMC) do not apply to these products.

Demand-signal Potentiometer

Order number **714127**

R = 5 k Ω ; 0-100% adj. scale

For setting external signals to electronic cards.

Solenoid Plug Connectors to ISO 4400/DIN 43650

Order numbers:

710775, for black plugs, marked B

710776, for gray plugs, marked A

These plugs have to be ordered separately for KDG4V and KTG4V proportional valves without feedback transducers. KF and KH series valves use the same plugs, but these are supplied with the valves.

▲ May vary depending on source.

Plug data

Cable diameter range	Ø6-10 mm (0.24-0.40")
Wire-section range	0,5-1,5 mm ² (0.0008-0.0023 in ²)
Terminals	Screw type
Type of protection	IEC 144 class IP65, when plugs are fitted correctly to the valves with the interface seals in place

LVDT Plug Connectors

Order numbers:

458938, for black plugs, marked B

458939, for gray plugs, marked A

These plugs are supplied with KF and KH series proportional valves incorporating feedback transducers, but can also be ordered separately.

Plug data

Cable diameter range	Ø3,5-6 mm (0.138-0.236 in)
Wire cross-section	0,25 mm ² (0.00039 in ²)
Terminals	Solder type, 4-contact
Type of protection	IEC 144 class IP65, when plugs are fitted correctly to the valves with the interface seals in place

Line Connector for KB/KA Valves

Order number 694534, plastic

Order number 934939, metal

No. of contacts 6 + ground

Terminals soldered

The connector is supplied with assembly instructions.

(934939 metal plug is 100 (3.94) long overall)

Products we offer:

- Cartridge valves
- DCV directional control valves
- Electric converters
- Electric machines
- Electric motors
- Gear motors
- Gear pumps
- Hydraulic integrated circuits (HICs)
- Hydrostatic motors
- Hydrostatic pumps
- Orbital motors
- PLUS+1® controllers
- PLUS+1® displays
- PLUS+1® joysticks and pedals
- PLUS+1® operator interfaces
- PLUS+1® sensors
- PLUS+1® software
- PLUS+1® software services, support and training
- Position controls and sensors
- PVG proportional valves
- Steering components and systems
- Telematics

Danfoss Power Solutions is a global manufacturer and supplier of high-quality hydraulic and electric components. We specialize in providing state-of-the-art technology and solutions that excel in the harsh operating conditions of the mobile off-highway market as well as the marine sector. Building on our extensive applications expertise, we work closely with you to ensure exceptional performance for a broad range of applications. We help you and other customers around the world speed up system development, reduce costs and bring vehicles and vessels to market faster.

Danfoss Power Solutions – your strongest partner in mobile hydraulics and mobile electrification.

Go to www.danfoss.com for further product information.

We offer you expert worldwide support for ensuring the best possible solutions for outstanding performance. And with an extensive network of Global Service Partners, we also provide you with comprehensive global service for all of our components.
